Objective

To secure an entry-level position at a reputable organization, utilizing the skills and qualifications acquired through my education at C.U. Shah Polytechnic and Government Engineering College, Dahod.

Education

- Government Engineering College, Dahod (GTU)** 2023-2026
Bachelor of Engineering (B.E.)
3rd Semester | CGPA: 7.22
- C.U. Shah Polytechnic College, Wadhwan (GTU)** Completed in 2023
Diploma in Engineering
CGPA: 8.67
- Pragati School, Surendranagar** 2020
Secondary Education (10th)
Grade: 72.78%

Skills

- Programming Languages: Java, Python (Data Science libraries: Pandas, NumPy, Matplotlib)
- Development Tools: Android Studio
- Database Management: Server database management with XAMPP

Projects

- Career Paths Application**
Developed an application aimed at guiding students in their post-10th and diploma in engineering educational decisions. The application helps students identify suitable fields, colleges, or schools based on their interests and test scores.
Key features include:
Career Guidance: Provides tailored suggestions to help students choose fields aligned with their interests.
Educational Videos: Offers informational videos about various career options and their benefits.
Quiz-Based Recommendations: Based on a quiz that gauges student interests, the application recommends relevant schools, colleges, and courses.
This project addresses a common problem faced by students who lack guidance in making informed career decisions, helping them avoid choices that might limit future opportunities.
